WHAT WE DO

- **Business Intelligence** — Power BI, Tableau & Qlik dashboards built for adoption, not just delivery.
- **Data Engineering** — cloud-native pipelines on Azure, AWS, Snowflake, Databricks & more.
- **Data & AI** — LLM assistants, agentic workflows & conversational BI, governed by default.
- **Geospatial Analytics** — location intelligence on ArcGIS, as an ESRI Partner.

FLAGSHIP PRODUCTS

ParseIQ — documents in, structured data out.

CXO Nexus — ask your business anything, get grounded answers.

TicketIQ — agentic AI resolving L1 IT tickets end to end.

InsightSM — every ITSM tool, one picture, dashboards in days.

DataPulseIQ — catches bad data before your dashboards do.

CallOps AI — human-like voice agents for inbound & outbound calls.

PROVEN IMPACT

- **Insurance** — 22% faster claim turnaround with GIS-driven analytics.
- **ITSM** — SLA compliance lifted from 68% to 91%.
- **Manufacturing** — 15% production-efficiency gain, plant floor to boardroom.
- **Data & AI** — 70% less manual document review; 40–60% lower MTTR with agentic AIOps.

WHY TECHKNOMATIC

- **Full-stack, single team** — BI, data engineering, AI & geospatial under one roof, 800+ projects deep.
- **India-built, Gulf-ready** — delivery teams across India, UAE & Oman, built for regional language and residency needs.
- **Outcomes, not outputs** — we're measured on adoption and decisions made, not dashboards shipped.
